1. Overview of Operations Results

(1) Overview of Operations Results for the Period

During the fiscal year under review (August 1, 2022 to July 31, 2023), the Japanese economy showed signs of recovery in such sectors as personal consumption as behavioral restrictions due to COVID-19 were eased and COVID-19 was reclassified in May 2023 as a Class 5 infectious disease. However, as uncertainties increased due to such factors as the prolonged war in Ukraine, it is necessary to keep close tabs on the impact on the economy of such matters as rising raw material prices and movements in financial and capital markets.

Under these current market conditions, the I'll Group is pursuing its "CROSS-OVER Synergy" strategy in order to strengthen the business of its customers.

Through a combination of "real" and "online" products and services, the I'll Group develops and proposes solutions for mid-tier and small/medium-size corporate clients that need to efficiently use IT to solve their management issues.

The "CROSS-OVER Synergy" strategy is an initiative to increase the business efficiency and strengthen the sales capabilities of customers, by proposing a combination of real and online products and services through the I'll Group's unique value proposition style. This strategy not only gives the I'll Group a competitive edge during negotiations, but also enhances the satisfaction of its customers. As a result of this strategy, the I'll Group has achieved firm growth in sales of recurring business in products and services, an area of focus, and a stronger profit structure.

As for sales results, I'll has continued on the real world front to broaden the product appeal of its mainstay Aladdin Office software package for each business sector. In sales, it collaborated with partner companies and saw orders remain firm as it actively held negotiations on web meetings and proposed ways for optimum system use for each client on the basis of plenty of by-industry installment examples.

In terms of revenue, sales increased mainly because it was no more affected by the delayed delivery of server equipment caused by semiconductor shortages as it was in the previous fiscal year. Furthermore, the increase in sales revenue, driven by the growth in subscription-based business and the enhancement of package functionalities, has led to an improvement in the gross profit margin. As a result, each stage of profit has surpassed the performance of the previous consolidated fiscal year.

On the online world, I'll continued collaborative development anew in the fiscal year with online shopping mall operators on the CROSS MALL software, which integrates the management of multiple online stores. The Company will continue to increase its capability to collaborate with multiple malls, receive requests from existing clients about functions and promptly realize them as new functions so that it can broaden product appeal and improve its sales performance. Also, the Company is achieving growth in sales of the CROSS Point software which allows integrated management of reward points and customers of Internet and physical stores.

In the fiscal year under review, the Company continued to focus on product development and booked \(\frac{4}66,164,000\) for research and development to increase market competitiveness through development of new technologies in the future. At the I'll Matsue Laboratory, an R&D base in Matsue, Shimane Prefecture, the Company launched full-fledged activities to use the Ruby programming language to strengthen systems. The Company plans to increase the number of R&D personnel and heighten R&D activities.

As a result, the Company posted consolidated net sales of \$15,924,604,000 in the reporting fiscal year (up 23.0% year on year), operating profit of \$3,547,609,00 (up 68.9%), ordinary profit of \$3,571,309,000 (up 68.4%), and profit attributable to owners of parent of \$2,472,202,000 (up 79.4%).

(2) Overview of Financial Position for the Period

As of the end of the reporting fiscal year, current assets totaled \$9,675,133,000, an increase of \$2,425,269,000 from the end of the previous fiscal year. This is mainly attributable to increases of \$1,999,677,000 in cash and deposits and \$396,209,000 in accounts receivable-trade. Non-current assets totaled \$2,440,194,000, an increase of \$113,220,000 from the end of the previous fiscal year. This is mainly attributable to increases of \$121,140,000 in software and \$94,763,000 in buildings and structures despite a decrease of \$111,128,000 in software in progress. As a result, total net assets amounted to \$12,115,327,000, an increase of \$2,538,490,000 from the end of the previous fiscal year.

Current liabilities totaled \(\frac{4}{2}\), 546,612,000, an increase of \(\frac{4}{4}\)12,293,000 from the end of the previous fiscal year. This is mainly attributable to increases of \(\frac{4}{3}\)375,604,000 in accrued consumption taxes included in "other" under current liabilities and \(\frac{4}{1}\)46,819,000 in corporate taxes payable despite a decrease of \(\frac{4}{1}\)18,921,000 in deposits received. Non-current liabilities totaled \(\frac{4}{1}\),828,299,000, an increase of \(\frac{4}{1}\)101,170,000 from the end of the previous fiscal year. This is mainly attributable to increases of \(\frac{4}{5}\)9,456,000 in provision for retirement benefits for directors and \(\frac{4}{5}\)65,000 in asset retirement obligations. As a result, total liabilities amounted to \(\frac{4}{3}\)74,912,000, an increase of \(\frac{4}{5}\)13,464,000 from the end of the previous fiscal year.

Total net assets amounted to \(\frac{\pmathbf{Y}}{7}\),740,415,000, an increase of \(\frac{\pmathbf{Y}}{2}\),025,025,000 from the end of the previous fiscal year. This primarily reflected an increase due mainly to \(\frac{\pmathbf{Y}}{2}\),472,202,000 in profit attributable to owners of parent and a decrease due to \(\frac{\pmathbf{Y}}{2}\),525,703,000 in dividends from surplus.

(3) Overview of Cash Flows for the Period

As of the end of the reporting fiscal year, cash and cash equivalents (hereafter referred to as "funds") amounted to \(\frac{\pmathbf{4}}{5},639,851,000\), an increase of \(\frac{\pmathbf{4}}{1},999,677,000\) from the end of the previous fiscal year.

The following is the consolidated cash flow statement and relevant factors for the reporting fiscal year.

(Cash flows from operating activities)

Funds increased due to operating activities amounted to $\frac{43,073,305,000}{41,134,153,000}$ increased in the previous fiscal year). This mainly reflects $\frac{43,567,223,000}{41,134,153,000}$ in net profit before taxes, $\frac{4999,402,000}{499,402,000}$ in payments of corporate and other taxes, $\frac{4478,961,000}{499,402,000}$ in depreciation, and an increase of $\frac{4396,524,000}{499,402,000}$ in accounts receivable and contract assets.

(Cash flow from investing activities)

Funds decreased from investing activities amounted to ¥547,415,000 (¥482,289,000 decreased in the previous fiscal year). This is mainly attributable to ¥402,630,000 paid for intangible asset acquisition and ¥144,960,000 paid for tangible fixed asset acquisition.

(Cash flow from financing activities)

Funds decreased from financing activities amounted to \(\xi\$526,212,000 (\xi\$465,636,000 decreased in the previous fiscal year). This is mainly attributable to \(\xi\$526,129,000 in dividends paid.

(Reference) Changes in cash flow indicators

	Fiscal year ended July				
	31, 2019	31, 2020	31, 2021	31, 2022	31, 2023
Equity ratio (%)	42.9	49.0	54.3	59.7	63.9
Market value-based equity ratio (%)	315.9	467.5	424.1	430.9	536.4
Debt redemption years	0.4	0.1	0.01	0.0	0.0
Interest coverage ratio (x)	304.3	913.2	1,399.3	953.6	4,419.8

Equity ratio: Shareholders' equity/Total assets

Market value-based equity ratio: Market capitalization/Total assets

Debt redemption years: Interest-bearing liabilities/Cash flow from operating activities

Interest coverage ratio: Cash flow from operating activities/Interest expenses

(Note) Market capitalization is calculated by multiplying the closing share price at the fiscal year-end by the number of outstanding shares at the fiscal year-end.

(4) Future Outlook

Looking ahead, the Japanese economy is showing signs of recovery in such sectors as personal consumption as behavioral restrictions due to COVID-19 were eased and COVID-19 was reclassified in May 2023 as a Class 5 infectious disease. However, as uncertainties increased due to such factors as the prolonged war in Ukraine, it is necessary to keep close tabs on the impact on the economy of such matters as rising raw material prices and movements in financial and capital markets.

With this situation in mind, the I'll group intends to keep proposing solutions that help mid-tier, midsize and small corporate clients to strengthen their power through efficient use of IT. Besides enhancing industry-wise functions of its mainstay Aladdin Office software package, the Company will broaden the appeal of e-commerce products and services such as the CROSS MALL software, which integrates the management of multiple online stores, and CROSS POINT software, which centrally manages reward points, and will pursue its CROSS-OVER Synergy strategy in order to increase net sales, achieve higher profit margins and improve customer satisfaction.

Taking the above into account and using reasonable information currently available, the Company projects consolidated financial results for the fiscal year ending July 31, 2024. Projected consolidated results are net sales of \$16,900,000,000, ordinary profit of \$4,026,000,000 and profit attributable to owners of parent of \$2,683,000,000.

(5) Basic Policy on Profit Distribution and Dividends for the Current and Next Fiscal Years

The Company regards return of profit to shareholders as a management priority and follows a basic policy of distributing profit by comprehensively considering retained earnings used for maintaining and strengthening competitiveness in its industry, levels of the return on stockholders' equity and payout ratios. The Company will work to repay shareholders' support, making efforts to increase earning power and strengthening its financial standing.

Regarding year-end dividends, the Company intends to propose paying ¥20 per share, up ¥6 from the previously forecast ¥14, at the 33rd annual shareholders' meeting scheduled for October 2023. Including ¥11 paid as interim dividends, the Company's annual dividends will total ¥31.

In view of the continuing unclear future economic situation and the I'll group's earnings estimates for next fiscal year ending July 31, 2024, the Company projects annual dividends of \$34 per share, with interim dividends of \$14 per share and year-end dividends of \$20 per share.

(6) Business Risks

Areas that could have a profound impact on the I'll group's business results, financial position, and stock prices are shown below. Note that the following items have been identified by the I'll group as of the end of the reporting fiscal year but that they do not cover all risks related to investment in the Company's shares.

(i) I'll group business scope

Since its foundation, the I'll group has primarily served mid-tier, small and medium-size companies, offering total solutions via IT in response to client business challenges by building core systems, providing support and maintenance, building networks, ensuring security, providing content, building EC sites, offering software that integrates the management of multiple online stores and software that integrates the management of reward points and clients, providing website usage support, and giving personnel training.

Therefore, fluctuations in the environment surrounding mid-tier, small and medium-size companies and the economy may adversely affect the I'll group's business results. Also, if the I'll group fails to keep offering products and services that meet the needs of mid-tier, small and medium-size companies, it could adversely affect the group's business results and business development.

(ii) Risks involved in the system solutions business

The I'll group's mainstay product in the system solutions business is the Company's original Aladdin Office Series core business package software. However, competition for better performance is intensifying due to increasing package software needs in the IT industry. The I'll group's policy is to keep striving to enhance performance, but advancements in competitors' package software or low-priced commercial package software may adversely affect the Company's business results and business development.

(iii) Risks involved in the online solutions business

In the online solutions business, the I'll group is contracted to build e-commerce websites. If infringement of third-party patent rights, utility model rights, design rights, trademark rights, copyrights or other intellectual property rights occurs from any cause, resulting in damages to clients and subsequent payment of compensation, the I'll group's business results and business development could be adversely affected.

(iv) System troubles

The I'll group relies on communications networks such as personal computers, computer systems, and cloud services. If computer systems shut down due to a variety of unpredictable factors such as network disruption caused by a natural disaster or accident, temporary server failure due to sudden increased access to the site, or loss of power, the I'll group's operations and business results could be adversely affected. Additionally, the I'll Group takes appropriate security measures to prevent unauthorized access to its computer systems, however, infection by a computer virus or intrusion by a hacker could result in system failure which could adversely affect the I'll Group's business and financial results.

(v) Risk of I'll group service obsolescence due to competitors and technological innovation

In the information service industry, in which the I'll group is involved, the speed of technological innovation is lightning, so in response to that rapid change, the group's development department makes efforts to improve existing products and promotes R&D. However, if new technologies and services become prevalent due to faster-than-expected technological innovation, the software and services provided by the I'll group could become obsolete, adversely affecting the Company's business results and business development. Also, product price cuts forced by intensifying competition with rivals or progress achieved by competitor products in enhancing performance could adversely affect the I'll group's business results and business development.

(vi) Securing and training up engineers

In addition to hiring new graduates, the Group continuously employs mid-career engineers and strives to train up engineers. However, increasing demand for engineers has made it increasingly difficult to appropriately secure excellent personnel through mid-career recruiting. Although the I'll group's corporate culture and systems are highly recognized and the group continues to hire as planned, failure to secure and develop human resources as planned could hinder the group's business development and affect the group's business growth and performance. In mid-career hiring, we will continue our efforts to secure excellent human resources as we keep hiring excellent engineers in regional areas with the assumption of remote work.

(vii) Management of confidential information

The I'll group sometimes handles highly confidential information in its business activities such as information on business partners and personal data that are held by clients. To properly manage such confidential information, the Company has obtained ISMS (ISO27001, ISO27017) certification as well as the Privacy Mark (ISO15001) and works to strengthen its information management system for employees such as by ensuring that employees are aware of information management based on in-house rules including the Information Security Guidelines and Personal Information Protection Standards and giving them continued training. Also, the Company takes steps to prevent any leak of confidential information by requiring each temporary staff member assigned to the I'll group to sign a Nondisclosure Agreement and implementing other measures. However, unauthorized access from the outside, system flaws or failures, human error in handling confidential information, intentional information leaks, deletion, or fraudulent use by employees could force us to lose trust and face damage compensation, depending on how to respond. Such cases could adversely affect the I'll group's business results and business development.

2. Corporate Group Situation

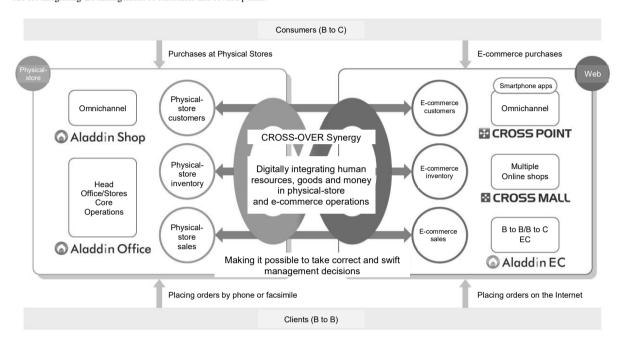

As of the end of the fiscal year under review, the group consists of the Company (I'll Inc.) and the consolidated subsidiary (Web Base Co.) and operates in two businesses: system solutions and online solutions.

(1) System solutions business

This service concerns general system provision to customers, including building core systems, hardware maintenance, providing system operation support, building networks and maintaining security. In this business, Web Base, a consolidated subsidiary, develops and provides maintenance for store management systems for the fashion industry.

(2) Online solutions business

This business concerns creation and operational support of clients' websites aimed at sales promotion, providing clients with business analysis and business strategy consultations, giving promotion, building e-commerce websites, providing such software as one for integrating the management of multiple online stores and one for integrating the management of customers and reward points.

3. Basic Thinking on Selection of Accounting Standards

The I'll group applies the Japan Generally Accepted Accounting Standards in order to maintain comparability between corporations and over time.

Cash and cash equivalents at end of period	3,640,173	5,639,851

(5) Notes on Consolidated Financial Statements

(Notes on the Premise of a Going Concern)

No applicable matters.

(Important Matters as the Basis for Preparing Consolidated Financial Statements)

- 1. Matters on scope of consolidation
- (1) Number of consolidated subsidiaries: 1

Consolidated subsidiary name: Web Base Co.

(2) Names of primary non-consolidated subsidiaries

No applicable matters.

2. Notes on application of equity method

No applicable matters.

3. Matters on consolidated subsidiary business year

The book closing date for the consolidated subsidiary is March 31. The consolidated financial statements are based on provisional statements prepared equivalently to final statements as of the book closing date.

4. Matters on the accounting policies

(1) Standards and methods for valuation of important assets

(i) Securities

Available-for-sale securities

Securities other than shares that do not have a market value

The market value method (with the entire amount of valuation differences included directly into net assets, and the cost of sale calculated using the moving-average method) is adopted.

Shares that do not have a market value

The cost method based on the moving-average method is adopted.

(ii) Inventories

Merchandise

The cost method based on the specific identification method (the balance sheet book value is written down according to a decline in profitability) is adopted.

Work in process

The cost method based on the specific identification method (the balance sheet book value is written down according to a decline in profitability) is adopted.

(2) Depreciation method for important depreciable assets

(i) Tangible fixed assets

The declining balance method is adopted. However, the straight-line method is adopted for buildings (excluding facilities attached to buildings) acquired on or after April 1, 1998, and for facilities attached to buildings as well as structures that were acquired on or after April 1, 2016.

The primary useful life is as follows:

Buildings and structures: 8 to 50 years

Tools, equipment, fixtures: 4 to 20 years

(ii) Intangible assets

Software used by the Company

The straight-line method is used according to the usable period (5 years) set in-house.

Software for sale on the market

The amount written off according to expected sales is compared with the equal distribution amount according to the expected sales period (3 years), and the larger one is booked.

(3) Standards for booking important allowances

(i) Allowance for doubtful accounts

To prepare for losses due to irrecoverable trade and other receivables, the estimated irrecoverable amount is booked, with loan loss rates considered for general accounts receivable and collectability considered individually for doubtful accounts receivable and other specific receivables.

(ii) Provision for bonuses

To prepare for employee bonus payments, the amount that falls within the fiscal year under review is booked out of the estimated payment amount.

(iii) Provision for product warranties

To prepare for free product repairs, a future estimated amount is booked according to past results.

(iv) Provision for retirement benefits for directors

To prepare to pay retirement benefits for directors, the amount to be paid at the end of the period is booked according to the bylaws for retirement benefits for directors.

(v) Provision for loss on order received

To prepare for future losses related to order contracts, the expected loss amount at the end of the fiscal year under review is recorded.

(4) Accounting method for retirement benefits

(i) Method to measure the estimated retirement benefit amount at fiscal year end

In calculating projected benefit obligation, the method to measure the estimated retirement benefit amount at the end of the fiscal year under review is based on the benefit calculation formula criteria.

(ii) Method to Recognize Actuarial differences as Expenses

Actuarial differences are each recognized as expenses from the fiscal year that follows the year when they arise, under the straight-line method using certain years within the average of remaining service years of employees (3 years).

(5) Standards for recording important revenue and expenses

(i) Customization, installation support, etc.

Revenue from such operations as customization, installation support results from design, development and installation support related to core operational systems such as under software contracted development agreements. The Company maintains that such performance obligations will be fulfilled over a certain period of time, estimates progress in the fulfilment and recognizes revenue over a certain period of time according to the estimate. The method of estimating the progress is to calculate the ratio of incurred cost to estimated total cost.

(ii) Licenses, hardware equipment, etc.

Revenue from the sale of licenses and hardware equipment is recognized according to the amount promised in the contract with each client at the appropriate time, on the assumption that performance obligation is met upon the delivery of the relevant license or hardware equipment to the client.

(iii) Service use and system maintenance

Revenue generated from service use and system maintenance is from the provision of services such as cloud service operations and maintenance.

As these are routine or recurring services, the Company maintains that such performance obligations will be fulfilled over time and recognizes revenue by proportionally dividing the amount promised in the contract with each client according to the contract period.

(iv) Other

The Company provides sales services for office-related and other products. Of these transactions, the Company recognizes revenue from those classified as agent transactions on a net basis by deducting the amount paid to suppliers and other parties from the gross payment received from the client.

The ordinary due date for all these contracts is generally the end of the month that follows the month in which acceptance inspection is completed or the month in which services are provided, and they do not include any significant financial element.

(6) Scope of funds in consolidated statement of cash flows

This consists of cash on hand, deposits that can be withdrawn as needed, and easily redeemable short-term investments with minimal risk of value fluctuation and a redemption date due within 3 months of the acquisition date.

(Changes in Accounting Estimates)

(Changes in Asset retirement obligations)

In the fiscal year under review, the Company changed estimates for asset retirement obligations that were recorded as restoration obligations associated with real estate lease contracts as it obtained new information on restoration expenses. An increase of ¥54,997,000 due to the estimate change is added to the balance of asset retirement obligations before the change. The estimate change does not affect operating profit, ordinary profit or net profit before taxes in the fiscal year under review.

(Segment Information)

Because the I'll group is a single segment entity, this section is omitted.

(Information on Net Profit Per Share)

	Fiscal 2022 (From August 1, 2021 to July 31, 2022)	Fiscal 2023 (From August 1, 2022 to July 31, 2023)
Net assets per share	¥228.31	¥309.21
Net profit per share	¥55.04	¥98.76

(Note) 1. Diluted net profit per share is not shown because there are no dilutive shares.

2. The basis for calculating net assets per share is as follows:

	Fiscal 2022 (As of July 31, 2022)	Fiscal 2023 (As of July 31, 2023)
Total net assets (Thousands of yen)	5,715,390	7,740,415
Amount deducted from total net assets (Thousands of yen)	-	-
Net assets at end of the fiscal year related to common stock (Thousands of yen)	5,715,390	7,740,415
Number of common shares used in calculating net assets per share (shares)	25,033,954	25,032,509

3. The basis for calculating net profit per share is as follows.

	Fiscal 2022 (From August 1, 2021 to July 31, 2022)	Fiscal 2023 (From August 1, 2022 to July 31, 2023)
Profit attributable to owners of parent (Thousands of yen)	1,377,907	2,472,202
Amount not attributable to common shareholders (Thousands of yen)	-	-
Profit attributable to owners of parent related to common stock (Thousands of yen)	1,377,907	2,472,202
Average number of common shares during the period (Shares)	25,034,584	25,033,031

(Significant Subsequent Events)

No applicable matters.

5. Other

(1) Director Changes

See the "Human Resources Notice On Directors and Executive Officers" published today.

(2) Other

No applicable matters.
